PROFESSIONAL SUMMARY

Flutter Mobile App Developer with experience designing and developing cross-platform applications for Android and iOS. Skilled in Dart, BLoC architecture, and API integration to build maintainable and high-performance applications. Experienced in developing backend services using Laravel and managing relational databases with MySQL. Strong foundation in computer science and software development best practices.

EXPERIENCE

Mobile App Developer — Confianz Global

Aug 2024 - Present

Trivandrum, Kerala

- Developed and maintained cross-platform mobile applications using Flutter.
- Implemented state management using BLoC for scalable and maintainable Flutter architecture.
- Integrated RESTful APIs between Flutter apps and Laravel backend.
- Designed and developed backend services using Laravel (PHP) following MVC architecture.
- Built and consumed REST APIs with proper authentication and authorization.
- Implemented Push Notifications using Firebase Cloud Messaging (FCM).
- Designed and optimized MySQL database schemas, queries, and relationships.
- Implemented JWT / Token-based authentication for secure API access.
- Used Git for version control and collaborated with teams in an Agile environment.

Project Intern — Sedai

Oct 2023 - May 2024

Trivandrum, Kerala

- Interned at Sedai, Trivandrum, working on Apache Spark cluster optimization for improved performance and resource utilization.
- Supported ML-based resource management techniques to enhance cluster efficiency and scalability.

Software Development Intern — Ospyn Technologies

May 2023

Trivandrum, Kerala

- Gained hands-on exposure to React Native fundamentals, including components, props, state, and navigation.
- Assisted in developing and testing cross-platform mobile application features.
- Collaborated with the development team to understand project workflows and best practices.
- Learned real-world mobile app development through guided project contributions and code reviews.

EDUCATION

TKM College Of Engineering — BTech Computer Science & Engineering

2020 - 2024

Kollam, Kerala | CGPA: 8.76/10

- Relevant Coursework: Data Structures and Algorithms, Operating Systems, Database Management Systems (DBMS), OOP (Object Oriented Programming).

PROJECTS

Alumni Portal application (ALMA) | Tech: Flutter, Django

- Developed frontend with Flutter and Django backend. Offers user profiles, mentorship directories, jobs, internships, events, and received high user feedback.

Apache Spark Cluster Optimization | Tech: Apache Spark, GCP, ML

- Created a custom dataset for Spark cluster management and optimized Spark clusters in cloud environments using ML-based resource management techniques.

Home Management System (ABODE) | Tech: Java, MySQL

- Designed a Java frontend and MySQL backend to log details of home management works and track availability of workers.

CERTIFICATIONS

- **Flutter & Dart - The Complete Guide** (2024): Mastered state management, custom UI layout, and API integration.
- **Programming, Data structures and Algorithms using Python** (IIT Madras / NPTEL, Jul-Sep 2022): Secured a Topper 2% certificate.

- **AI ML Training Program** (IIT Madras, June 2022): Completed training on AI and ML techniques.

LANGUAGES, TECHNOLOGIES AND SKILLS

Programming Languages: C, C++, Java, Python, PHP.

Mobile Development: Flutter, Dart, React Native.

Backend & Database: Laravel, RESTful APIs, MySQL.

Developer Tools: Git, Postman, VS Code, Android Studio.

Soft Skills: Communication, Leadership, Team Collaboration, Problem Solving.
